

K-LOVE radio station is an enormous public service in Vacaville and nationwide. I listen to K-LOVE for religious music, but also for public service announcements and breaking news. If K-LOVE weren't available, I'd listen to CD's and would miss breaking news. The service K-LOVE provides is invaluable for many reasons. 1) It is privately funded, so it doesn't force those who don't use its services to pay for it. 2) It provides up to the minute breaking news so I am aware of things like road hazards and breaking news stories. Please do not allow stations like K-LOVE to lose their broadcast ability to LPFM stations. Thank you.
